Disclaimer: this slide deck is not intended to replace a careful reading of the US FDA Guidance for Industry and this slide deck does not constitute regulatory guidance without further discussion.

- Division of Medication Error Prevention and Analysis in the Center for Drug Evaluation and Research (CDER)
- Center for Biologics Evaluation and Research (CBER) at the FDA
- Released: MAY2022

Applies to:

- **Prescription drugs** (new or abbreviated drug applications) with approvals
- **Prescription drugs** without approved application
- **Biological products** with approved biologics application

Medication Error Prevalence

33% related to
labeling or packaging
issues and make-up

30% medication error
fatalities (Aspden 2006)

Aspden, P, Wolcott, J. A., Bootman, J.L., and Cronenwett, L. R., eds., Preventing medication Errors, IOM, Washington, DC: The National Academies Press, 2006, p. 275

Applicable Regulations

Federal Food, Drug and Cosmetic Act 21 U.S.C 301 et seq.

<https://www.fda.gov/regulatory-information/laws-enforced-fda/federal-food-drug-and-cosmetic-act-fdc-act>

21 CFR part 201 (drugs)

<https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/CFRSearch.cfm?CFRPart=201&showFR=1>

21 CFR part 610, Subpart G (biological products)

<https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/cfrsearch.cfm?cfrpart=610>

Principal Display Panel Requirements

- **Name**/proper name
- **Dose** (e.g., 2 tablets, 20 units)
- **Strength** (e.g., milligrams, mg/mL)
- **Route(s)** of administration (e.g., oral, IM, IV, topical)
- **Warnings/cautionary statements** (if applicable)
- Controlled substance **schedule** (if controlled)
- **Expiration** date
- **Frequency** (if space available)

Display Panel Examples

Strong contrast

Adequate contrast

Clear reconstitute dosing

Dose? Route? Strength ✓

Top Panel (AUGMENTIN):

- 250 mg/5 mL** (NDC 43598-004-51)
- AUGMENTIN® AMOXICILLIN/CLAVULANATE POTASSIUM FOR ORAL SUSPENSION**
- When reconstituted, each 5 mL contains: **AMOXICILLIN, 250 MG**, as the trihydrate; **CLAVULANIC ACID, 62.5 MG**, as clavulanate potassium
- 75 mL** (when reconstituted)
- DR. REDDY'S
- Rx only
- Pharmacode : 560
- 1111
- 150035303
- LOT
- EXP.

Bottom Panel (Ursodiol):

- Ursodiol Capsules, USP**
- 300 mg**
- Rx Only
- 100 Capsules
- Exp. Date:
- Lot No.:
- USUAL DOSAGE: See accompanying literature for complete prescribing information.
- Store at 20°-25°C (68°-77°F) [see USP Controlled Room Temperature].
- Dispense contents in light-resistant container as defined in the USP with a child-resistant closure, as required.
- Issued 05/10
- LE1476
- NDC 42806-503-01
- Each capsule contains: Ursodiol, USP.....300 mg
- KEEP TIGHTLY CLOSED.
- KEEP THIS AND ALL MEDICATION OUT OF THE REACH OF CHILDREN.
- Manufactured by: Epic Pharma, LLC, Laurellton, NY 11413
- 42806-503-01

Poor Design Examples

- Product name, dose, strength missing, confusing or not prominently located
- Cluttered by extraneous information, graphics.
- Size, style, color contrast/design elements

Poor Design Examples Continued

- Key information is not in same field of vision (e.g., user has to rotate container)
- Similar appearances between products or strengths
- Overlapping text on both sides of transparent container (e.g., vials)

End User Perspectives

Acute care

Crash cart medication drawer

https://health.ucdavis.edu/cppn/resources/clinical_skills_refresher/crash_cart/top_drawer.html

Legible, Readable, Understandable

Product naming, labeling, packaging should be aimed at the *end user*

- Considering: intended **uses**, end **users**, **environment** of use

Labels and Containers:

2. Wording oriented in same direction
3. Placed in same field of vision
4. Sufficient blank space for readability

Examples of Label Details

- Label cannot cover packaging so that inspection of contents is not possible (if applicable)
- Text size such as 12-pt sans serif (e.g., Arial)
- Non-critical information on side or back panel
- Image of product at bottom of label

Examples of Label Details Continued

- Avoid abbreviations (e.g., *IU* is close to route *IV*)
- Differentiate product colors (avoid color coding)
- Packaging and labeling language/content consistency
- Tall Man lettering (e.g., drugOXide versus drgEXide)
- Strength clarification (*100 mg per tablet* rather than *100 mg*)

Examples of Label Details Continued

- Avoid use of word “NOT” (e.g., for use in ears only)
- Neuromuscular blocking agents special (WARNING: Paralyzing Agent in red, bold required)
- Barcodes visible on label (FD&C Act (21 U.S.C 321 (k))
- Transferable or peel-off labels for injections (once drawn)

REGULATORY LABELING REVIEWS

Frestedt Experience

Labeling Projects

Frestedt Incorporated has supported dozens of client-specific medical device, pharmaceutical and food labeling projects. The Frestedt team uses proprietary preparation methods with a proven track record for delivering labeling and translations in compliance with US Food and Drug Administration (FDA) as well as international regulatory requirements and standards.
